

International Conference on Intelligent and Cloud Computing (ICICC-2019)

(16-17 December, 2019)

Organized by the Department of Computer Science and Engineering,
Faculty of Engineering and Technology (ITER)
SIKSHA 'O' ANUSANDHAN (Deemed to be University), Bhubaneswar,
ODISHA

SESSION #1/ TRACK #1 (Intelligent and Cloud Computing): 17th December, 2019
(11.30 am to 1.00 pm)

Session Chair:

Session Coordinator:

SKYPE PRESENTATION

Sl. No	Paper ID	Paper Title	Author Details	Presented by
1	4	Energy Efficient Clustering with Rotational Supporter in Wireless Sensor Network	Priyambada Parida, Bandita Sahu, Ami Kumar Parida and Sambit Kumar Mishra	
2	8	Mobile Cloud Computing: - A Case Study	Napur Bharati, Sucheta Das and Mahendra Gourisaria	
3	27	Corroborating the Veracity of Body Fat Percentage using Residuals and Goodness-of-Fit	Grace Hannah and Gladis Christopher	
4	40	Design of Compact Super-Wideband Monopole Antenna for Spectrum Sensing Applications	Pawan Kumar, Shabana Urooj and Bharat Jyoti Ranjan Sahu	
5	66	Probabilistic and Distance-Aware Clustering Approach to Decrease the Effect of Hot-Spot in WSN	Ruchi Kulshrestha and Prakash Ramani	
6	23	A Real-Time Sentiments Analysis System using Twitter Data	Aditya Dave, Santosh Kumar Bharti, Samir Patel and Sambit Kumar Mishra	
7	116	Low Profile Circularly Polarized Antenna for Contemporary Wireless Communication Applications	Bharat Jyoti Ranjan Sahu, Sachin Kumar and Shobhit Saxena
